COMMENTS FROM THE TOWN MANAGER'S OFFICE

This week I will be in attendance at the New England Managers Institute at the University of Maine for a three day session. The Institute is sponsored by the University of Maine and the Maine Town and City Managers Association, with Professor Dow as Institute Director. The session opens at 9 a. m. Monday and will close with the annual banquet on Wednesday evening.

The main theme of the Institute is Planning. Several of the subjects are: The Need for Planning, School Construction and Consolidation, Zoning, Highway Planning, Public Utilities, Public Buildings, and Long Range Fiscal Planning. The purpose of the Institute is for managers to become better informed on the subjects that are presented. Most sessions are held in the form of panel discussions.

Dutch Elm Disease is getting closer to Bethel, as you no doubt already know. Mr. Butler at Bethel Inn called the Town Office relative to a tree at the Inn that shows very definite signs of some type disease. The tree is located opposite the main entrance to the Inn. It branches out into two large prongs, on one of which the leaves are dying rapidly. Looks alone does not indicate the cause of the trouble. The Maine Forest Service has been called and we have been informed that a representative of that department will be in town this week or next to check the tree. The department has requested that a sample of the wood be sent for laboratory culture to determine if Dutch Elm Disease is present. Contents of their report will appear in this column as soon as it is received.

Sincerely,
Harold L. Bean

Plan Outing for Junior Baseball Teams Sunday

A Sunday Outing has been planned for the teams of the Bethel Junior Baseball Program. It will be held on Sunday, Aug. 24, at Raynor Littlefield's Beach at Locke Mills. All boys on the teams of the Indians, Red Sox, Braves, Cardinals, and Yankees and their families are invited to attend. There are tables and fireplaces, and all are asked to bring their picnic lunch, which may be a cook-out, if desired. Swimming or father and son baseball games will be enjoyed throughout the day. The baseball club will pay the fee required for entrance to the field. In the event of rain, it will be postponed until the next Sunday, Aug. 31.

The managers ask that those who can leave at 10:00 a. m. meet at Bucky's Filling Station or that vicinity, in order that those requiring transportation may be taken care of. Those wishing to leave at a later time may go directly to the Beach.

BETHEL, MAINE

The combination of summer heat and high speed can mean real trouble for the average motorist. Statistics show that while August accounts for about 65 per cent more driver mileage than February, it produces 140 per cent more tire trouble. And, among all causes of accidents due to equipment failure, tire trouble ranks second only to brake failure.

Each of the more than 700 tire revolutions per mile causes flex stresses which are translated into heat in a tire's reinforcing cord fabric. Thus, on a hot day of turnpike speeds, a tire temperature of 270 degrees Fahrenheit is not uncommon. At that heat, the tire cord is losing strength. Under such conditions, an invisible bruise in the cord caused by an unremembered drop into a chuck-hole, can ripen into a blowout.

Laboratory tests, involving exposure to 212 degrees for

30 days, show that rayon tire cord loses 70 per cent of its original strength, while nylon cord loses only 27 per cent. And, even when new and unaffected by stresses, rayon tire cord can withstand only about 50,000 impacts from a wheel-mounted steel plunger, while nylon cord can resist 650,000. After 24,500 miles of normal road use, a nylon reinforced tire is still about four times as resistant to impact as is a new rayon tire from the same manufacturer. After the same mileage, however, rayon tires have lost all but one-sixth of their original impact resistance.

Nylon's outstanding resistance to heat, impact, flexing, and moisture — has gained it rapid recognition as the safest tire reinforcing material. It is a tire's best defense against the forces of heat and speed.

To the youngsters, a drive with the gang is great fun. But driving is serious business, too. Last year, nearly 40,000 people died in traffic accidents — many of them killed by drivers whose minds weren't wholly on their job. So stay alert every minute when you drive. Keep driving fun — and safe!

Some gravel has been carted into the Union School dooryard. We hope it will stay but the heavy rains do a lot of washing on the hill and one can never be sure unless it is grassed over.

MAN'S RECIPE

SUNNY ACRES

BRIAN-PRUNE MUFFINS

Here at Sunny Acres, a 10 acre village farm with a 1775 colonial house, I do considerable gardening. It is my summer hobby—and cooking is my winter hobby. When we have a rainy spell in summer, I like to go into the kitchen and originate a cookie, cake, or something else.

Our kitchen has a picture window, looking north across the gardens and fields to Crooked Mountain. Just outside the window we can watch the birds as we eat our meals at an antique pine, bread-board table. The dining room, on the south side, with its panelling, is probably the most beautiful room in the house and the one we use the least.

It is only three steps from the electric stove to the eating table by the window. Our kitchen is the long, narrow type with plenty of cupboard, upstairs and down. I do the dishwashing and drying in return for Blanche's work on the bookkeeping for our various enterprises. And incidentally, I clean up after my cooking!

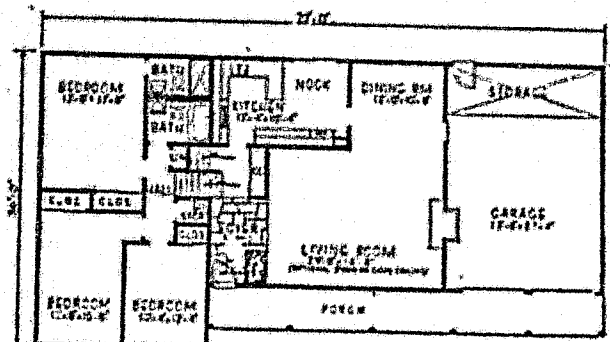

Blanche originated this muffin one that I rate A. Use one cup flour, one teaspoon soda, one teaspoon salt, two cups bran, one egg beaten, one half cup sugar, one fourth cup molasses, three fourths cup whole milk, two tablespoons melted shortening, one half cup

King-Size Multi-Level
Is Regal Inside and Out

Here is a home that beats the Imperial Crown It has been awarded—"the country's most beautiful split-level." So breathes belongs to those who appreciate the advantages of multi-level living. Its interior, too, so exciting in magnificent proportions, area is imposing with its sloping ceilings and massive beams. Extravagantly-spaced master suite has its own bath. The kitchen, designed and equipped for convenience with eye-level built-in oven, counter-top range, dishwasher, disposal, and ventilating fan, is combined with a delightful dining nook.

At the lower level, the fourth bedroom can become a maid's room with private bath. The paneled recreation room, 25 by 22 feet of family relaxation area, opens to the lower-level patio. A covered porch at the front, a main patio to the rear, and deep protective roof overhangs, climax the design.

To obtain more information about this award-winning home, write to Don Scholz Design Associates, Dept. 103, 2001 Westwood, Toledo 7, Ohio.
